

## RP-344 "BLACK" Military-Grade Rust Preventive Spray

**FAST-DRYING, LONG-TERM, ULTRA-TOUGH, RUBBER-TYPE RUST PREVENTATIVE**

RP-344 is a black, fast-drying, super durable, long-term, rust & corrosion preventative designed to protect steel, iron and metals (equipment) stored indoors or outdoors and/or shipped overseas. RP-344 "BLACK" is also commonly used a vehicle/truck undercoating and transportation coating that can stand up to all road conditions and chemicals encountered across multiple winter seasons. RP-344 "BLACK" is a solvent solution that produces a hard, rubber-type black film with a semi-flat/matted, slightly "textured" appearance. Its rapid drying permits handling in about 30 minutes without injury to the film.

RP-344 "BLACK" meets or exceeds Military Specification MIL-PRF-16173, Grade 1, which has been employed by the U.S. Armed forces for more than 40 years.

### **PRODUCT FEATURES:**

- \* Superior Long-Term Rust & Corrosion Prevention Characteristics
- \* Protects your investment in inventoried parts and equipment in transit (overseas, on the road, etc.) for years.
- \* Exceptional weathering.
- \* Fast-drying (dry-to-the-touch in about 30 minutes)
- \* Coating can be painted over.
- \* Coating can be safely welded through.
- \* Extremely resistant to cracking

### **COMMON USES (include, but not limited to):**

- \* Construction Equipment
- \* Farm Equipment
- \* Industrial Tubing, Piping, HVAC
- \* Gears & Machinery
- \* Vehicle Undercoating & Automotive Parts
- \* Transportation Equipment
- \* Marine Equipment and Machinery
- \* Overseas Shipping & Transportation
- \* Oil-Drilling Platforms, Infrastructure & Equipment.

### **APPLICATION:**

Make sure surface is reasonably clean and dry. Spray thin uniform film. For more very long storage durations, a second coating can be applied if desired within 30 minutes. Typical first application Dry Film Thickness is 2.0 Mills (51 Microns)

### **REMOVABILITY:**

RP-344 "BLACK" can be easily removed with any over-the-counter petroleum solvent. Examples include mineral spirits, paint thinner, naphtha, diesel fuel, or our very own [Cosmoline Remover](#).

Part #: 344-1032  
12oz. aerosol can
